

**Sustainable.
Efficient.
Effective...Naturally.**

Foliar Essentials supplemental foliar spray to boost crops' nutrient efficiency.

Greenhouse and Nursery

Apply as needed every 7-14 days, as a foliar application for enhanced nutrient uptake and plant tone.

Injector Ratio Chart

L to make 4L of stock solution

Injector Setting	½ Rate L	(Optimum) Full Rate L
1:15	0.25	0.5
1:50	1	2
1:100	2	

Tank Mixing Rates:

Greenhouse Application:

2 to 4 L per 400 L tank

Field Application:

10 to 50 L per hectare

Aerial Application:

1.25 to 2.5 L per hectare in minimum of 40 L of water

Nature's Source Foliar Essentials

Is a valuable addition to all nutrition programs and can be applied starting in propagation and on through the growing cycle of the crop.

Foliar Essentials application encourages a more compact growth habit with increased tone and nutrient uptake.

The natural compounds found in oilseed extract promote nutrient uptake efficiency.

Compatible with new chemistry.

Avoid tank mixing with micro nutrients or heavy metal fungicides.

It is not necessary to add adjuvants when tank mixing or applying from an injected solution.

A jar test is always recommended.

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N).....2%
Available Phosphate (P₂O₅).....1%
Soluble Potash (K₂O)1%

List of Ingredients: Fermented Oilseed Extract
4.54 kg (10 lbs.) per 3.8 L (1 gallon) at 20°C (68°F)
