

# Grow Program: Organic Tomatoes & Vegetables

**The Nature's Source Difference:** Nature's Source plant foods are high efficiency nutrition formulated with oilseed extract, an all-natural and renewable source of plant nutrition. The low salt formulations enhance nutrient uptake by the plant.

## Feeding Recommendations

---

***Occasional Feed Program:*** Beginning from day of transplanting or seeding, feed with Nature's Source Organic 3-1-1 at a rate of 250 ppm 2 - 3 times per week.

Organic 3-1-1 can be applied as a supplemental foliar spray starting in propagation and on through the growing cycle of the crop. This application encourages a more compact growth habit with increased tone and enhanced nutrient uptake. Apply at a rate of 1 gallon per 100 gallons of water (1 oz. per gallon) every 7-10 days, as needed.

***For Growers who prefer Constant Feed:*** Feed Nature's Source Organic 3-1-1 at 120 -180 ppm.

***Nature's Source Benefits:*** Tomatoes & Vegetables grown with Nature's Source will be full of energy and nutrition without salt stress for improved transplant success.

***Many Growers report*** more toned plants with shorter internodes and stronger stems. They also see more blooms and fruit for earlier - ready to market.
